

# INSIDER TOP FIVE LAUNCHES

## Five products to look out for this month

1

### Q Acoustics Concept 300 £2999

Following on from the success of its flagship Concept 500 floorstander, Q Acoustics claims the Concept 300 is its 'most progressive loudspeaker yet'. The speakers come with the company's fancy new Tensegrity tripod stand, which features a mix of aluminium rods and thin stainless-steel cables, designed to reduce the impact of external vibrations.

2

### McIntosh MT1100 £7500

McIntosh's high-end turntable set-up has it all.

There's Bluetooth connectivity, as well as analogue (3.5mm) and digital (coaxial, optical) inputs for plugging in various sources. There's also a headphone output powered by McIntosh's High Drive headphone amp and a vacuum valve preamplifier paired with an 80W Class D power amplifier.

3

### Rotel CD11/A11 £429/£599

It's been a while since we've seen new hi-fi separates from Rotel, but the company now has a new CD player and amp pairing to show off. The CD11 CD player includes RCA and coaxial digital connections, while the A11 features 50W per channel, a moving-magnet phono stage and a Bluetooth receiver.

4

### ATC SIA2-100 £2500

ATC might be better known for its stereo speakers, but the company has also been known to dabble in the world of hi-fi electronics. The SIA2-100 is a 200W, two-thirds width stereo amplifier, finished in brushed and anodised 'titanium' silver. Connections include two pairs of analogue inputs, a 3.5mm input and trio of digital inputs - optical, coaxial and USB Type B.

5

### Philips 8804 £tbc

The 8804 Series is Philips' first LCD TV range to feature audio from Bowers & Wilkins. Available in 65in, 55in and 50in screen sizes, the range gets a 50W, 2.1 channel set-up from the British speaker manufacturer. Other features include three-sided Ambilight, three HDMI inputs and Philips' P5 Perfect Picture Processing.
