

AS1000

Any professional audio-lover will listen enthusiastically to this subwoofer's performance. The term "sound box" was invented especially for the AS1000, a professional subwoofer that can be applied anywhere. A 15" driver was built in which can handle peaks up to 1400 Watts. The AS1000 is a passive sound box, designed for universal use, in small and large spaces, at either low or high volume. Its size gives away its power. Thanks to the bass reflex-design you will always experience maximum performance in low frequencies.

Together with the UNI75 or the UNI80, the AS1000 forms the perfect pair. This will turn any party room into a ballroom, any pub into a discotheque and any museum into an auditorium. That is ensured by the ultimate combination of middle, high and extremely low tones.

TECHNICAL SPECIFICATIONS

range	<400 m ²
system	passive subwoofer
woofer	15" EU-transducer
tweeter	-
impedance	8Ω
bass reflex	yes
magnetic shielded	-
amp power	1000 / 1400W
sensibility	136dB
frequency range	38Hz - 160Hz
connection	Speakon 2 x NL4 in parallel
dimensions (h x w x d)	430 x 530 x 550mm
weight / piece	29kg
composition	15 mm multiplex box with polyurethane coating
colour	black

- User friendly Speakon connection
- Strong cabinet with polyurethane coating
