

Stream Box DSA

All-in-one Highend solution

- 24 bit/192kHz music streamer & internet radio
- Built-in audiophile amplifier 2x 60 watts (4 ohms)
- Fixed & variable analogue audio outputs (RCA)
- Volume control using IR remote, front buttons, App
- analogue inputs: 2x RCA stereo
- digital inputs: 1x S/PDIF coax, 1x Toslink, 2x USB
- Top-grade Highend PCM 1796 DAC
- AIFF, FLAC, WMA9 lossless, ALAC & AAC playback
- Gapless playback of all audio formats
- Search functionality fast forward and back
- Alphanumeric search
- 3,5" colour display shows cover art and metadata
- 9 Display languages
- Wifi 802.11/b/g/n allowing real 24/192 with Wifi
- Solid metal casework prevents from interference
- Special proprietary NetAPI implemented for fast access
- Free Control APP (iOS & Android)

AUDIO FORMATS	MP3, FLAC (up to 24bit/192kHz including 24/176), WMA9-lossless, AIFF, AAC, ALAC, LPCM (upto 24bit/192kHz), Ogg Vorbis 1.0, ASX vTuner included
INTERNETRADIO	
GAPLESS	all audio formats (with IR remote or Box Control App)
INPUTS	Network, 1x digital coax, 1x digital optic, 2x analogue 2x USB 2.0 (24/192, type A), supports flash & hard disc drives (FAT16 & FAT32)
OUTPUTS	Speakers, RCA (analogue) coax S/PDIF (digital)
POWER AMPLIFIER	2x 40 / 60 watts @ 8 / 4 ohms
SN RATIO	110dB @ 1,8V
NETWORK	Wi-Fi IEEE 802.11 b/g/n & Ethernet (10/100 BaseT)
EXTERNAL CONTROL	Free Box Control APP for iOS + Android
POWER SUPPLY	24VDC/5A
POWER CONSUMPTION	120W max with HD drive/ 0,3W standby
CASING	Aluminium, black or silver
DIMENSIONS	72 x 206 x 230 mm (HxWxD) withoutplugs/antenna
WEIGHT	2,9 kg

Stream Box DSA is Pro-ject Audio's new fully equipped audio streamer, that not only includes more features, but is an **audiophile amplifier**, too. Additional to streaming functionality Stream Box DSA also acts as D/A converter for other digital sources (USB, coax, Toslink) and as pre-amplifier with 2 additional analogue sources and audiophile power-amplifier, that easily drives high-quality speakers! Superb audio playback including 24bit HD music is self-evident, like outstanding technical data for distortion and noise levels. Navigation and volume control can be done via front control buttons, IR remote (which is included) and/or free **Android / iOS App**.
